

# The Property

We feel so fortunate to have 2+ acres....They were wild and woolly, but with the help of landscape designer, Greg Trutza (<http://www.gregtrutza.com>), a long-term vision was created. **Everything** needed to be re-done, with the exception of the existing orchard. A new entrance, driveway, landscaping beds, fencing, pool, you name it and we re-did it. We added a hen house, restored the barn, built a pool house and created my coveted garden.

Here are just a few pictures of Bella Terra.
